

Bishop Steven Foster  
Released Ministries International

If you are seeking an aggressive move of God in your assembly I earnestly recommend to you Evangelist Jeremiah Cummings. He emerged from a Muslim background in which he spent several years with Louis Farrakhan as his chief advisor. God saved him and has now placed him under my tutelage and spiritual covering. As he works diligently at Released Ministries International he never ceases to amaze me in his dedication for ministry and his undying love his wife and children; he is truly a loving father and husband.

As you may know, Evangelist Cummings was a member of the infamous Harold Melvin and the Blue Notes, and you may remember their songs such as "If You Don't Know Me by Now" or "Wake up Everybody". Now he is in the midst of writing melodies for our Lord and Saviour Jesus Christ. We are now planning a men's movement where God is going to save men in masses.

Look for a mighty move in the earth as God uses Evangelist Jeremiah Cummings in 21st century Christian ministry.

The Master's Servant
